

A photograph of a lush green forest. Sunlight filters through the dense canopy of trees, creating a bright, airy atmosphere. The trees are tall and thin, with thick foliage. The overall color palette is dominated by various shades of green, from deep forest greens to bright, sunlit yellows and whites where the light hits the leaves.

SIGN OF NATURE<sup>®</sup>

natural sleep

# SIGN OF NATURE®

The **Sign of Nature**®-Series of STS Textiles is a real innovation. Faithfully to the Slogan: “natural sleep with good conscience” we are using the Ingeofibre. Manufactured out of 100% natural resources a product with outstanding characteristics can be created. Base material for the production of ingeofibres are sugar compounds from raw materials like mice and sugarcane.

**Sign of nature**® - fabrics can be 100% recycled after usage and contribute due to that in reduction of environmental harmful burden like e.g. CO<sup>2</sup>.

Already in planting the fibre much less energy

is consumed as compared to the production of regular fibres. During their usage products with Ingeofibres are reducing the CO<sup>2</sup> concentration in the environment. Beside the environmental – friendly characteristics Ingeofibres are convincing by their outstanding performance – characteristics. The Ingeofibre has a hypoallergenic – effect, can absorb a lot of moisture and supports due to that a healthy sleeping climate.

Additionally **Sign of Nature**® - fabrics of STS Textiles are highly air-permable and have an uncreased comfort which improves the sleeping-quality.

- 100% manufactured out of regrowing resources
- 100% recyclable
- hypoallergenic effect
- extremely high moisture absorption
